WORLD'S MARKETS

NEW YORK, Jan. 29.—Reactions of 1 to 2 points in motors and oils imparted a heavy tone to active issues at the outset of today's stock market session. The reversal among oils was due in part to the suspension of dividends on Freeport, Tex., slaves. Steels, equipments, shippings and other representative stocks were only slightly affected. Within the first half hour prices steadied under influence of a moderate demand for high grade specialties and a rally in foreign exchange.

Pressure against oils was reduced soon after the first rally, Mexican Petroleum, Royal Dutch, Sinclair and Middle States displaying marked heaviness. The reaction also embraced various specialties, including Columbia Graphophone, Famous Players and Endicott-Johnson. Steels, coppers and food stocks participated moderately in the setback with low railroads. Automobile shares pursued an independent course, however, General Motors rising briskly at noon.

The money market offered little encouragement to the long account, call loans opening at 10 per cent, the maximum initial rate of the week.

CHICAGO GRAIN

CHICAGO, Jan. 29.—Prices in the corn market today lacked support. The main depressing influence was uncertainty regarding financial conditions. Selling, however, appeared to be of only a scattered character. Opening quotations, which ranged from the decline to 1/2 cent advance, with May \$1.34 1/2 to 1.34 3/4 and July \$1.31 1/4 to 1.31 3/4, were followed by a moderate setback all around.

Oats sagged with corn. After opening unchanged to a share higher, including May \$2 1/2 to \$2 3/4, the market underwent a material drop.

Liquidating sales of hard carried down the entire provision list. There was free unloading by houses with eastern connections.
